## OUR ADVANTAGE

At KSK, we understand the complexities and nuances surrounding private equity and venture capital investments (including cross-border investments) arising from regulatory pressures and market practices. Accordingly, we mold our advice to best suit the needs of our clients on a time-bound basis.

We are closely connected with a lot of agencies to whom we dispense our advisory service. We work together with various governmental and regulatory authorities through their various committees and bodies like the Legal Cell of the 'Make in India' initiative, several committees of CII, and FICCI. We have our preemptive fingers on the pulse of the way regulations are evolving. This ensures our deep understanding of the sector we are dealing with and that our advice is steeped in commercial acumen.

We understand that cross-border transactions require the involvement of local counsel in other jurisdictions. Our informal network of law firms in ninety-seven countries across the globe helps us provide end-to-end support in such cross-border transactions to our clients, helping fast-track the transaction and keep costs under check by maintaining control under one umbrella. We are cognizant of the dynamic natures of private equity and venture capital. We ensure that our practice evolves to keep stride with the same and our clients receive the best-in-class counsel at each step of their journey.
