Labour & Employment

Education:

B.A. LL.B. (Hons.) –
Dahrmashastra National
Law University, Jabalpur
(2025)

Professional Summary:

Srishti focuses on advising clients across a broad spectrum of commercial transactions, with a particular emphasis on drafting and negotiating transactional documents such as joint venture agreements, shareholders' agreements, share purchase and subscription agreements, and master service agreements. Her practice also extends to assisting companies in navigating regulatory landscapes, ensuring compliance with applicable laws across diverse sectors. She has been actively involved in legal due diligence processes, transaction structuring, and contract execution. In addition to core commercial work, Srishti regularly provides advisory on nuanced legal issues in areas such as IT and data protection laws, financial services and fintech regulations, securities law, and employment compliance.

Representative Clients :

Srishti has advised a diverse range of clients across sectors and stages of business. Her experience includes working with scheduled commercial banks, non-banking financial companies (NBFCs), private equity investors, venture capital funds, and other financial institutions. She has also advised private and public companies, including those preparing for initial public offerings. Her clientele spans across telecom service providers, energy and infrastructure companies (including those in the renewable energy space), online gaming platforms, fintech and payment solution providers, IT/ITES companies, and software development firms. Additionally, she has worked with clients in the e-commerce, logistics, consumer goods, and manufacturing sectors, as well as employment and staffing service providers.

Relevant Recent Experience:

- Conducted end-to-end legal due diligence for clients in relation to strategic acquisitions, including the identification and assessment of red flags and regulatory risks.
- Advised on foreign direct investment transactions, including structuring advice and identification of compliance requirements under the extant legal framework.
- Drafted and reviewed key transactional documents such as joint venture agreements, shareholders' agreements, share purchase agreements, and other related contracts.
- Developed customised compliance manuals for clients in line with sector-specific legislation and operational requirements.
- Reviewed and advised on client data protection and privacy policies to enhance legal compliance and mitigate risk.
- Supported clients with legal advisory tailored to sectoral regulations, including labour laws, financial regulations, and technology-driven business operations.
- Assisted in the drafting, mapping, and vetting of financing and security documents, including loan agreements, deeds of hypothecation, powers of attorney, pledge agreements, corporate and personal guarantees, and indentures of mortgage.
